NESPRESSO: READY WHEN YOU ARE

02/07/12

Yong-Eun Lee
Pei Miller

Nespresso NewBrew is an iPhone application that allows you to connect to your espresso machine. It's the best way to make coffees on the go! Share a recipe with your friends or just simply select an original recipe that the app already has.

There are 3 options on the starting screen,

Create Coffee

My favorite – a list of different coffees that you've made and saved

About App – takes to the app site

Once you've clicked on the Create Coffee it takes you to the second screen, here you can choose the size and the type of the cup that you want. Click next on the upper right hand corner to go to the next screen.

You can customize your coffee on the 3rd screen. You can always go back by click on the back button (upper left corner) if you ever changed your mind. Add as much sugar/milk/espresso/water as you want here. The cup display shows your progress. You can use the scroll bars on the right and at the bottom. Click next to go to the next screen, 4th screen is the estimation time for the coffee that you've chosen. You can add to favorite here or you can simply click make it now.

Once your coffee is done it will take you to the 5th screen, and your coffee is ready! You may choose to share with your friends on Facebook or you can simply keep it private.
